

ZIP OUTDOOR ROLLER BLINDS

ZIP OUTDOOR ROLLER BLINDS

Zip outdoor roller blinds system preventing heat to enter rooms while allowing soft light in and block solar radiation and UV. Sunshade system can adjust visible light. Mean it is transparent to ensure a sweeping view of outside landscape.

Zip outdoor roller blinds system has excellent wind resistance capability. The weighted bottom bar is completely parallel to windowsill, making sure that roller blinds can connect windowsill seamlessly when closed. In this way, the system can prevent insect from entering the house and at the same time ensure good ventilation.
